## KS3

Students follow the KS3 programme of study for Art. Students learn a wide range of topics through observational drawing, designing, research and planning to reach a final piece in 2D, 3D construction, printing, textiles, painting, ceramics and much more. They are expected to do a series of structured tasks particularly in Year 8 and 9, which requires them to research to develop their ideas prior to starting to create their final design. Throughout the process, they undertake critical evaluations of their work. The course assists students to expand their artistic skills and show their imaginative thought process in preparation for KS4.
