1. Introduction

A principal aim of education is to prepare young people for life beyond school and college. It is important that students leave school aware of their individual strengths as well as the opportunities available to them and able to make decisions about their life in the future. Students will not be restricted in their choices and will be inspired to make a full and active contribution to society once leaving school and become the best they can be.

2. Background

2.1 This policy follows the following Government Guidance:

The Department of Education's '*Skills for Jobs: Lifelong Learning for Opportunity and Growth*' (January 2021)

Appendix 1:

Heathlands School Careers Provider Access Plan

This information complies with the school's legal obligations under Section 42B of the Education Act 1997 and Careers guidance and access for education and training providers, 2015, updated January 2023 to include the Provider Access Legislation (PAL).

Pupil entitlement

Heathlands will provide at least 4 encounters for students in the Upper School:

- Two encounters for students in year 8 and 9 that are mandatory for all pupils to attend
- Two encounters for students in years 10 and 11 that are mandatory for all pupils to attend

In the context of the provider access legislation, a provider is an organisation that offers approved technical education qualifications or their representative, for example an FE college or training provider.

A provider, to whom access is given, must deliver an encounter that includes the following:

- Information about the provider and the approved technical education qualifications or apprenticeships that the provider offers
- Information about the careers to which those technical education qualifications or apprenticeships might lead
- A description of what learning or training with the provider is like
- Responses to questions from the students about the provider or approved technical education qualifications and apprenticeships.

Students will:

- find out about technical education qualifications and apprenticeships opportunities, as part of a careers programme that provides information on the full range of education and training options available at each transition point;
- hear from a range of local providers about the opportunities they offer, including technical education and apprenticeships – through options events, assemblies and group discussions and taster events;
- understand how to make applications for the full range of academic and technical courses available.

Management of provider access requests

A number of events, integrated into the school careers programme, will offer providers an opportunity to come into school to speak to pupils and/or their parents/carers or to present to students via zoom.

The school will make the hall, a classroom or meeting room available for discussions between the provider and students, as appropriate to the activity. The school will also make available AV and other specialist equipment to support provider presentations. This will all be discussed and agreed in advance of the visit with the Careers Leader.

Providers are welcome to leave a copy of their prospectus or other relevant course literature which will be displayed next to the Careers' noticeboard or handed out to individual students if appropriate.

A provider wishing to speak to or offer visits to students at Heathlands should contact: Nicola Jackson (Curriculum Lead Teacher for Humanities and Arts) via the school office:
